**STORMTRACKER FORECAST**

Staying sunny with some haze still through a warm afternoon

1h ago

**RADAR & ROADS**ROAD CONDITIONS [ND Roads](#) | [MN Roads](#) | [SD Roads](#)**WEATHER HEADLINES****John Wheeler: Early signs point to a cold winter coming**

The difference maker is the developing La Niña, which will shift the primary belt of tropical thunderstorm activity much further east.

8h ago

**John Wheeler: Hot and sticky weather makes us feel hot and sticky**

The amazing human body is usually able to maintain a steady internal temperature most of the time.

1d ago

**John Wheeler: This winter will not have any wind chill advisories**

Starting this winter, the local National Weather Service will be issuing a "Cold Weather Advisory."

2d ago

**John Wheeler: Small storms this week packed a punch**

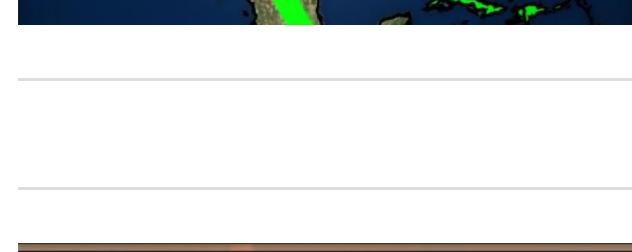

The small size of the storms was due to the absence of any general atmospheric trigger other than instability.

3d ago

**John Wheeler: Are some climates healthier than others?**

Some climates are more suited for human comfort than others, but our highly adaptable bodies and brains can adjust to almost anything.

4d ago

**Tracking a hot summer weather pattern**

StormTRACKER Meteorologist John Wheeler discusses the hot summer weather.
